## **INVITATION**

Dear colleagues,

Cordial greetings from the Indian Society for Medical Statistics (ISMS) Secretariat. Hope all our esteemed members are well and safe. This is the second and final announcement of ISMS conference 2020.

Indian Society for Medical Statistics is pleased to announce the hosting of 38<sup>th</sup> annual conference of the society (ISMSCON-2020). The conference will be held completely on online platform during December 10-12, 2020. The Society Secretariat and members take full responsibility of hosting this conference and in that sense, it is going to be an unique experience for each one of us to successfully organize the conference. This conference will offer an opportunity to discuss recent developments in Medical statistics, Epidemiology, Big data analytics, Data science, Bioinformatics and related areas. We will try our best to create opportunity to interact with colleagues and friends through new experience of the digital world. We invite your active participation and deliberation in ISMSCON-2020 and make it a lively ever memorable virtual experience under the banner of ISMS.

## **ABOUT ISMS**

The Indian Society for Medical Statistics (ISMS), established in 1983 at Jhansi in Uttar Pradesh is a Society, registered under Societies Registration Act XXI of 1860. It is a scientific body consisting of biostatisticians, medical teachers, researchers, demographers, public health professionals and scientists from other related disciplines. This society of scientists working in the medical field is the only society of its kind in the South East Asia region. The society provides a common platform for medical researchers, statisticians and computer specialists to interact and benefit mutually towards sharing the developments and applications of statistical techniques.

Since its inception, the society has been organizing a conference every year in conjunction with its annual meeting at different universities and academic institutes in the country.

## **CALL FOR ABSTRACTS**

The ISMS conference secretariat is pleased to invite delegates to submit abstracts for the presentations from the domain of theoretical, methodological and applied areas of statistics in medicine, epidemiology, public health, genetics, drug research, data science, large scale surveys, bioinformatics, artificial intelligence, etc. The conference will have plenary talks, invited talks and contributed oral/e-poster presentations.
